Through a long punt by Barrett, all the playing in the first period was in Feunsylvania's locality. Pennsylvania showed fine defensive work and Cornell was compelled to kick often. Once Cornell carried the ball from midfield by line bucking by Shlvock, Cofylins and Barrett and a 15 yard forward plass, Barrett to Eckley, to Pennsylvania's six yard line where Cornell was held for downs. Pennsylvania punted to her own 40 yard line. Then Cornell made another 15 yard gain on a forward pass, Barrett to Tilley, and added ten more on the plunger.

## tarles, who have carried American skill into all the sones of war, in financial sid for the hospitals and other Red Cross institutions, and in the purchase and transportation of nearly 4,000,000 pounds of hospital and medical supplies and equipment, this sum has been reduced to less than \$50,000 now available to meer the great domands of the approaching winter. Asks People is Aid. That the splendid work of this organization, which more than any other represents the sympathy of us all should be permitted to cease, is unthinkable. I therefore samestly call upon the people of the United States once again, by their generosity to assure the fied Cross against the curtailment or discontinuance of the large activities in which it is enanged. That this assurance is urgent is shown by the comparatively small sum remaining in its treasury, a sum which, however closely it may be husbanded, will suffice for but a few weeks. "Contributions may be forwarded to any state or local treasurer of the Red Cross or to the national headquarters, Washington, D. C. (Signed) Woodrow Wilson." met the demands of the entente powers

delivered to them. The announcement says:

The reply is couched in very friendly terms and gives satisfaction of the demands of the entente powers and all guarantees considered essential.

The collective note was presented to the Greek government on Thesday. As outlined in modificial dispatches, it contained no request for Greek intervention in the war with the allies, but asked Greece to give assurances that she would preserve her friendly attitude in case the afflied troops now in Macredonia should be compelled to retreat across the frontier to Greek territory.

Assurances are Definite.

London, Eng., Nov. 25.—Although the full text of the Greek governments reply to the collective note presented by the nowers has not yet been made public in England, there is every indication that the British government is satisfied with the position taken at Athena. The assurances given by Greece differ in marked degree from the previous expressions of benevolent neutrality. They are neither vague nor evasive, but promise explicitly that no military mensures will be taken against the Servins. French or British troops in case they retreat to Greek territory.

Dexter has been the turkey center of New Mexico for the past week. There have been 2606 turkeys shipped from here for the Thankegiving trade.

Disaster Fer Servia.

Military events to the Baikans appear to be marching swiftly to a conclusion disastrous to Servia. The approaches to the historic battlefield of Kossono plain, which were extended to form a strong defensive line and seriously delayed the advance of the invaders, already has been traversed. In the ensuing battle the Servians are reported to have been unable to withstand the shock of the attack and they are now said to be in retreat toward the Albanian border.

In the absence of late information concerning the situation at Knitchiralk pass, it may be assumed the Servians are still holding the position.
